Sage Roller Door
Technical Information

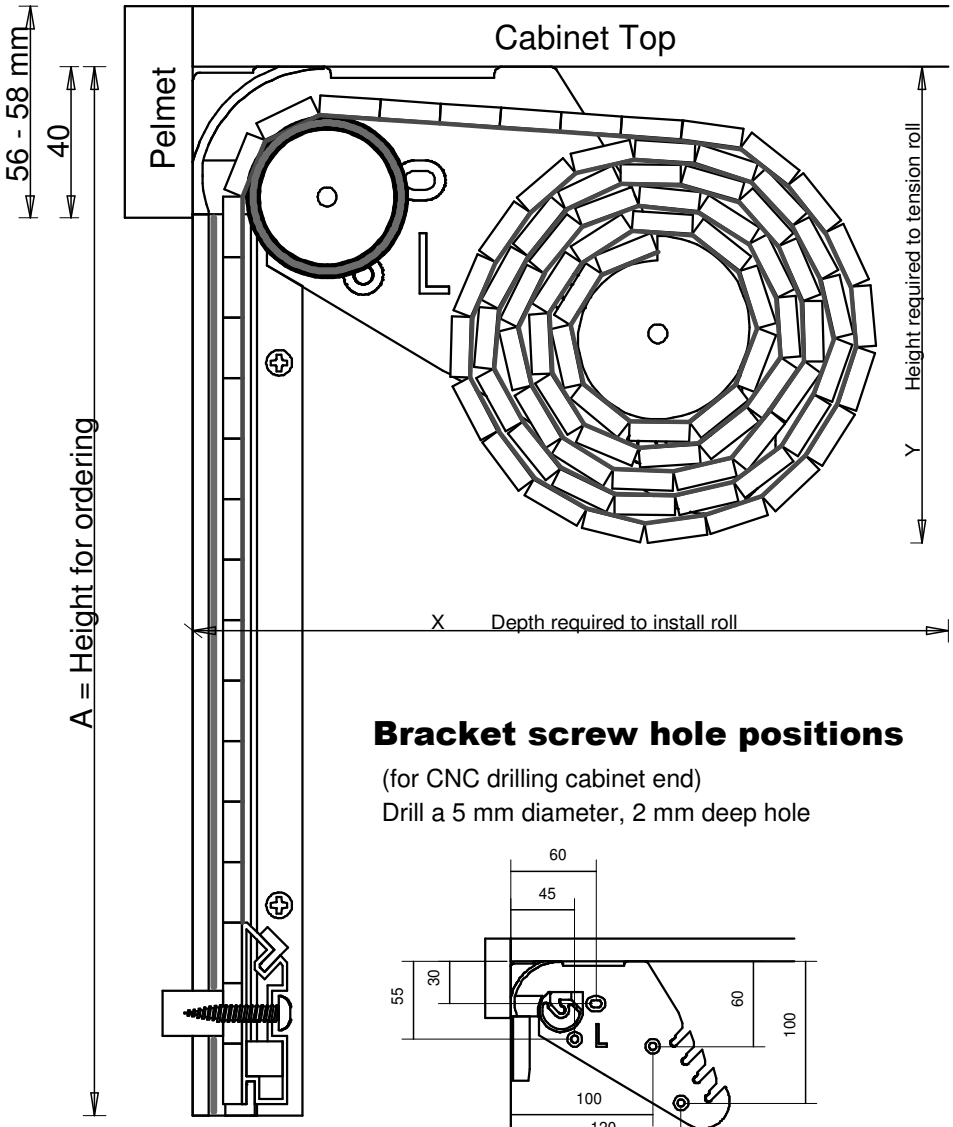
Important

Pelmet Height

40 mm + cabinet top thickness
(for **all** roller door sizes)

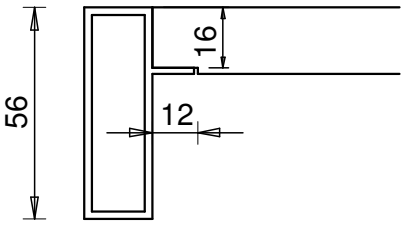
Fascia Width

Minimum **28 mm** + cabinet overlay
(new track is 5 mm wider than before)



Size of Aluminium Surround

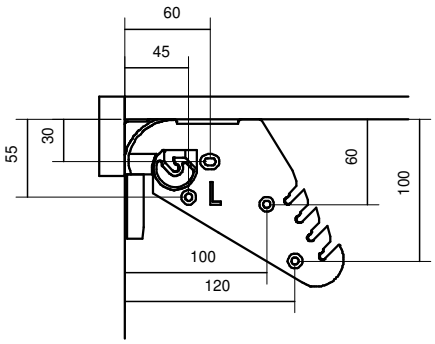
When ordering an aluminium surround
please include the overall surround size.
If the top overlay is greater than 16 mm
you will have to make a 12 mm rebate
on the bottom front edge of the cabinet top

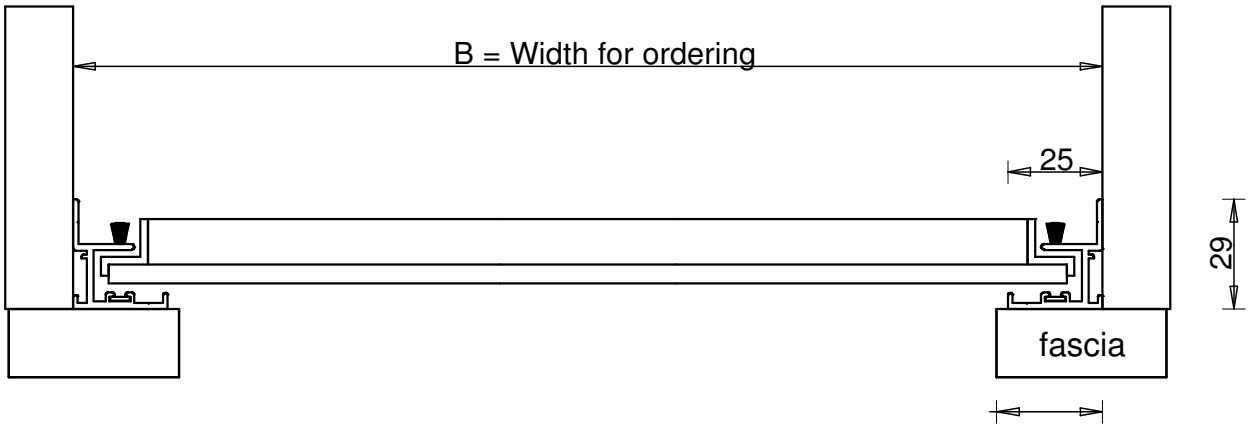


Aluminium Pelmet is ALWAYS 56 mm
Aluminium Side Fascia is ALWAYS 45 mm

Bracket screw hole positions

(for CNC drilling cabinet end)
Drill a 5 mm diameter, 2 mm deep hole





Space required by the roller door (dimensions X and Y as per diagram)
